

IT CATALOG

The IT Catalog provides an overview of approved Green Dot technology available for purchase. The IT catalog is used both for budgeting and to communicate technology purchases with Green Dot IT.

When an order is received, Green Dot IT will create a requisition in ExpenseWatch for approval and process the order with the appropriate vendor.

If you are interested in purchasing an item that is not in the catalog below, please consult first with your school's Area Superintendent / DFO and assigned desktop administrator.
